

# FACES2 ACCESS CONTROL AI-POWERED SECURITY FOR HIGH-SECURITY FACILITIES

Combine AI-enhanced identity verification, flexible credential options, and centralized oversight in one secure access control platform. Built for demanding environments, FACES2 helps organizations protect critical areas, manage permissions, verify identities, and respond quickly to access events with real-time visibility across doors, zones, and facilities.

## WHY CHOOSE FACES2 ACCESS CONTROL

### UNMATCHED CREDENTIAL OPTIONS

Supports smart cards, PINs, palm & facial recognition, mobile credentials, QR Code.

### UNIFIED SECURITY

Access, lockdown, tailgating & AI threat detection in one.

### CENTRALIZED MANAGEMENT

Unified visitor and credential oversight.

### MODERN RETROFIT

Cloud-enable existing readers and hardware.

### EFFORTLESS SCALABILITY

From a single door to multi-campus estates.

### MOBILE CONTROL

Turn smartphones into secure credentials.

SCAN TO EXPLORE

A unified workflow that verifies every credential, flags unauthorized attempts in real time, and logs all activity through a central dashboard integrated with AI Threat Detection.

## DEVICES THAT POWER ACCESS CONTROL

**READERS**  
Multi-credential readers for cards, mobile ID, biometrics, and QR.

**AUTHENTICATION**  
Flexible options to match your facility's security needs.

**F2 SMART CONTROLLER**  
Central hub for doors, sensors, alarms, and AI threat detection.

**JCOP SMART CARDS**  
Tamper-resistant JCOP (Java Card) chips, extremely hard to clone or crack.

## SEE HOW WE COMPARE

Unmatched flexibility, integration, and scalability.
