

# FACES2 ID AUTHENTICATION FLEXIBLE IDENTITY VERIFICATION, ANYWHERE

Verify identity remotely with high accuracy using our mobile app, or in-person with a dedicated scanning device. AI-powered, compliant, and seamlessly connected to the FACES2 platform for unified security operations.

## WHY CHOOSE FACES2 ID AUTHENTICATION

### REDUCE FRAUD RISK

Biometric and multi-spectrum checks prevent spoofing and counterfeiting.

### PRIVACY-FIRST

No retention of personal data; COAs securely controlled by users.

### ACTIONABLE RECORDS

Digitally signed COAs provide authoritative verification logs.

### COMPLIANCE CONFIDENCE

Built-in AML / CTF and regulatory database cross-checks.

### OPERATIONAL FLEXIBILITY

Remote onboarding and high-security workflows unified.

### MOBILE ID VERIFICATION

Verify government-issued IDs securely on smartphones, anywhere, anytime.

# HOW IT WORKS

From capture to certificate, FACES2 validates each government-issued ID through multi-spectrum and biometric checks, screens it against regulatory databases, and issues a digitally signed Certificate of Authenticity, on mobile or at a scanning station.

## FLEXIBLE VERIFICATION, MOBILE OR IN-PERSON

## SEE HOW WE COMPARE

Unmatched flexibility, integration, and scalability.
